

# PLACING A VAULT IN A TIGHT PLACE with an M.B.R. Lifterkart and TurnTable

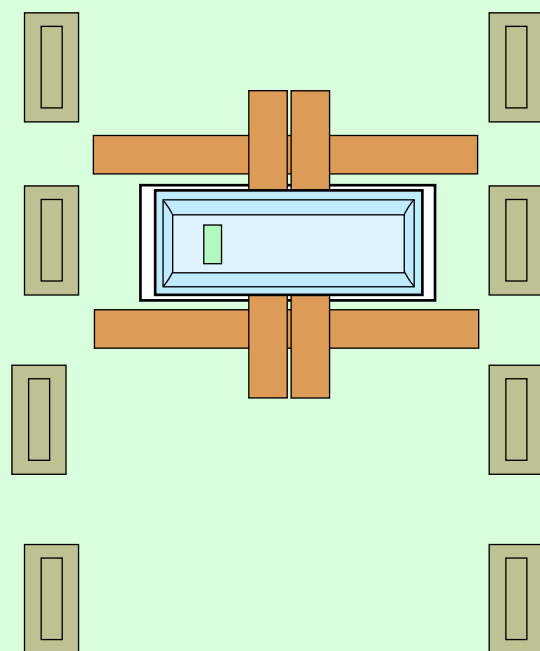

*Set up planks around the hole as shown with M.B.R. TurnTable in the center.*

*Use M.B.R. Lifterkart to place the burial vault on to the M.B.R. TurnTable.*

*Remove the planks used to drive the M.B.R. Lifterkart over the grave hole.*

*Rotate the burial vault on the M.B.R. TurnTable, and set up an above-ground sealing device to lift the burial vault. Remove the TurnTable & center planks.*
